

PLUG THE GAPS

with the right AP Provider

Your budget

- Confirmed budget with leadership
- Noted any extra or premium feature charges
- Researched additional charges, including support or set-up fees

Your current position

- Identified areas where bottlenecks occur
- Noted processes where errors are repeatedly happening
- Scoped processes where efficiency could be improved
- Analysed areas where integration with your accountancy software could be better
- Established business objectives for the future, including growth plans

Your requirements

- Discussed product development for future integration enhancements and new features
- Identified support service options
- Scoped integration capabilities, including data transfer between systems
- Ensured the system can handle your businesses growth objectives
- Clarified key feature requirements that meet current and future needs

Your research

- Spoke to similar businesses using the system
- Read online reviews
- Compared features, pricing and support to similar software providers
- Ensured the system can handle your businesses growth objectives
